

## ADEKA to Join Feiplastic 2015

ADEKA Corporation, a Japan-based leading polymer additives manufacturer, announced to join the Feiplastic 2015 in Sao Paulo, Brazil in May.

### **Feiplastic 2015**

[Official Site](#)

Date: May 4 (Mon) – 8 (Fri), 2015

Place: Anhembi Sao Paulo

Stand: [F561](#)

Product: - Nucleating and Clarifying Agent for Polypropylene  
- HALS for Automotive Interior and Exterior Parts  
- Halogen Free Flame Retardant for Polyolefin  
- Specialty and Commodity Process Stabilizers for Polyolefin

And more

ADEKA established ADEKA BRASIL REPRESENTAÇÃO COMERCIAL LTD in Sao Paulo in 2012 as our first office in South America. Now we have been distributing ADEKA's fine products to South American nations, including Brazil and Argentine, which have been developing astonishing pace. This will be our second consecutive participation in Feiplastic. Through continuing presence in this fair, we will show our technical strength to this market.

ADEKA Corporation, a Japan-based leading polymer additives manufacturer, was established in 1917 in Tokyo, having nearly 100 years of experience in the chemical industry. We have a wide product lineup in the polymer additives field:

- Process Stabilizers from Commodity to Specialty
- Nucleating Agent / Clarifying Agent for PP, including for Food Packaging
- High Performance HALS and UVA
- Environmental Friendly PVC Stabilizers/Plasticizers

The ADEKA group has 14 companies in 11 nations for polymer additives business, enhancing market development globally. Following this Feiplastic 2015, we are going to join the following other trade fair:

- Chinaplas 2015 in Guangzhou, China

We are looking forward to seeing you at our stand.
