

## ADEKA to Join “6th Fire Retardants in Plastics” in USA

ADEKA CORPORATION, the Japan-based leading polymer additives manufacturers, gives a lecture in the annual conference “6th Fire Retardants in Plastics” held by AMI (Applied Market Information LLC).

**6th Fire Retardants in Plastics**    [Official Site](#)

Date:        3-4 May, 2016

Place:        Marriott Pittsburgh City Center, Pittsburgh, PA, USA

Title:        Halogen-free flame retardant system for weatherable polyolefin applications

Time:        15:10-15:40, 3 May

This annual international conference has now become an essential place to access the latest technology and information around flame retardant for plastics. This time we will show the advantage of our ADK STABILIZER FP-2000 series including the newest data about weatherability, which is highly demanded in the market. We are sure that our presentation offers solutions to customers’ problems.

With our high quality and environmental friendly polymer additives, we continuously contribute to supply fine plastic products all over the world.

We are looking forward to seeing you at our presentation.
