

Feiplastic 2017 report

Feiplastic 2017, where ADEKA joined with its Brazilian affiliate ADEKA BRASIL, was a success.

ADEKA founded ADEKA BRASIL in 2012 with headquarters in Sao Paulo. Since then, ADEKA group is joining Feiplastic every time, which is known as the biggest plastic tradeshow in all South America. As a result, the presence of ADEKA group in this area is getting stronger year after year.

This time we put a focus on nucleating agents and flame retardants from our portfolio. During the event, many customers visited our booth and we had many fruitful meetings and discussions.

We would like to thanks all the visitors, customers and those who had kindly supported us, for joining.

Feiplastic 2017
