With Local Society

The ADEKA Group strives to be a good corporate citizen that respects and understands the culture and customs of the communities it does business in, both in and outside of Japan. The Group continues to engage in active dialogue with communities, seeking to co-prosper and coexist with society.

Activities for Local Communities

In an effort to build positive community relations, ADEKA Group companies are actively involved in community events and seek out opportunities for diverse public interaction, such as organizing community festivals for the public. Group companies are also actively involved in cleaning up surrounding neighborhoods.

Security and Disaster Prevention

Security and disaster prevention are the most important responsibilities of ADEKA Group production sites that handle hazardous and toxic materials. To gain the trust of the local community, we not only comply with relevant laws and regulations but also rigorously manage processes, facility maintenance, and voluntary safety.
