**ADEKA CORPORATION**

## **ADEKA General Purchase Policy**

1. We will provide just and equitable business opportunities to all our business partners. When conducting transactions, we will comprehensively take into consideration not only the quality, price, and supply ability but also the effort in ensuring inventiveness, ecological standards as well as safety work environment. We will agilely keep up with changes in the market and the environment to build a mutually growing relationship.
2. In conducting procurement activities, we will comply with all relevant legislation and rules and will not violate social norms or corporate ethics. Through consideration for the global environment and respect for social rights, we will contribute with our procurement activities toward a society with sustainable development. Furthermore, we will fulfill our social responsibilities as a corporation.
