

ADEKA FOODS (ASIA) acquires FSSC 22000 Certification

ADEKA FOODS (ASIA) (hereinafter AFA"), a subsidiary in Malaysia, of ADEKA Corporation (President and Chief Executive Officer: Akio Kohri) has acquired certification in the international food safety management system standard FSSC 22000 (Food Safety System Certification 22000)* on October 23, 2017.

AFA has continued its efforts to improve its food quality management by acquiring the halal certification and the kosher certification and by instituting the international food hygiene management method known as hazard analysis and critical control point. Its recent acquisition of the FSSC 22000 certification has paved the way for the construction of an even higher level of food safety management system.

To bolster sales, the ADEKA Group will endeavor to provide its customers around the world with products that feature enhanced safety, reassurance and taste.

*** FSSC 22000**

FSSC 22000 is an internationally accepted certification scheme based on a combination of ISO 22000 and ISO/TS 22002-1:2009. It was given Global Recognition by the GFSI (Global Food Safety Initiative).

Amid globally mounting interest in food safety, more and more food businesses are acquiring certification. The ADEKA Group is aiming to acquire certification for all its food production bases in Japan and overseas.
